If I had extra money to spend on my classroom I would buy....	A bunch of materials for science experiments and math lessons
If I had extra money to spend on myself I would buy....	New refrigerator
I decided to be a teacher/ work at CHS because....	I always loved math and science but didn't decide to be a teacher until I took a job as a substitute teacher in Oklahoma. I was hooked then and have loved working with middle school kids for the past 19 years.
It means the most to me when a student....	Does or says something kind.
